

Launch the Message Wizard

Last Modified on 12/03/2017 7:29 am EST

You can add a message to Message Activity, Task Activity, and Listener Activity. For each of these activities, there is a specific procedure for launching the message wizard.

Activities with a Message Option

Activity	Method for Launching the Message Wizard
Message	The message wizard opens automatically.
Task	<ol style="list-style-type: none"><li data-bbox="603 573 1086 607">1. In the App Studio, click the Task activity.<li data-bbox="603 613 1350 680">2. In the Properties panel, click the three dots next to the Message property.
Listener	<ol style="list-style-type: none"><li data-bbox="603 743 1126 777">1. In the App Studio, click the Listener activity.<li data-bbox="603 784 1313 817">2. In the Properties panel, select the Allow Message check box.<li data-bbox="603 824 1267 857">3. Click the three dots next to the Allow Message property.
