

Retrieve a User Inbox

Last Modified on 04/24/2017 6:37 am EDT

```
public ObjectDataReader GetView(AuthenticatedUser user, IWorkflowEngine engine)
{
    if (user == null)
    {
        throw new UnauthorizedAccessException("Unknown user.");
    }
    using (SecurityManager.CreateContext(user))
    {
        IMessageViewService msgVService =
            engine.GetServiceWithCheck();
        ViewSettings settings = msgVService.CreateViewSettings();
        settings.PageNum = 1;
        return msgVService.GetView(settings);
    }
}
```
