

Analytics Designer Load is Empty

Last Modified on 03/21/2018 2:27 am EDT

Description

The Analytics designer does not contain any content.

Affected Versions

8.3

Solution

1. First, access the admin `web.config` file.
2. Add the `...` section. The security mode value is different for HTTP and HTTPS.
 - o **HTTP:**
 - o **HTTPS:**

```
skip="true">
```

3. Add the following, additional `...` section under the section.

```
.....
```

```
.....
```
