

Start New Instance Button is Disabled

Last Modified on 11/28/2017 8:17 am EST

Description

A workflow name displays in the workflow list, but the **Start New Instance** button is disabled.

Cause

There are two possible causes.

- The user doesn't have sufficient workflow permission.
- The workflow's first activity is a listener activity.

Affected Versions

All versions

Solution

If the case is insufficient workflow permission, grant the user additional permission (more than Read only).
