

Exception 'Resource not found for the segment 'XXX" when calling OData Service

Last Modified on 11/28/2017 8:22 am EST

Description

When you call a Cora SeQuence OData service, the exception *Resource not found for the segment 'XYZ'* displays in the Event Viewer and Fiddler. HTTP Error code 404.

Cause

Service.

Affected Versions

7.7 and later.

Solution

Check the following information in the OData service call.

- Service URL definition
- Change *XYZ* to a valid Lookup Query name.
