

POST /MessagesService.svc/AddRecipients

Last Modified on 09/13/2021 5:10 am EDT

Adds multiple recipients to a message in Flowtime.

Method

POST

URL

https://localhost/Flowtime/_vti_bin/Flowtime/MessagesService.svc/AddRecipients

Request Parameters

Name	Type	Required	Description
activityInstanceId	integer (long)	required	Activity Instance ID.
userId	integer (array)	required	User IDs of the users that you want to add to the message.
PageSize	integer	optional	Number of records returned on a page.
PageNum	integer	optional	Number of the page to retrieve records for.

Example Request

```
$.ajax({
  type: "POST",
  url: "_vti_bin/Flowtime/MessagesService.svc/AddRecipients",
  data: JSON.stringify(
    {
      activityInstanceId: 123,
      userId: [724,1131]
    }
  ),
  headers:
  {
    "uiculture": "en-GB",
    "culture": "en-GB",
    "theme": "/Flowtime/Shared Resources/Themes/Sequence8/",
    "X-SqXsrfToken":xsrf,
    "config": "Portal"
  },
  dataType: "json",
  contentType: "application/json; charset=utf-8",
  success: function (data) {
  },
  error: function (error) {
    console.log(error);
  }
});
```

Success Response

CommandResult = true
