

# POST /MessagesService.svc/RemoveRecipient

Last Modified on 09/13/2021 5:16 am EDT

Remove a single recipient from a message in Flowtime.

## Method

POST

## URL

*https://localhost/Flowtime/\_vti\_bin/Flowtime/MessagesService.svc/RemoveRecipient*

## Request Parameters

Name	Type	Required	Description
activityInstanceId	integer (long)	required	Activity Instance ID.
userId	integer	optional	User ID of the user that you want to remove from the message.
PageSize	integer	optional	Number of records returned on a page.
PageNum	integer	optional	Number of the page to retrieve records for.

## Example Request

```
$.ajax({
  type: "POST",
  url: "_vti_bin/Flowtime/MessagesService.svc/RemoveRecipient",
  data: JSON.stringify(
    {
      activityInstanceId: 123,
      userId: 724
    }
  ),
  headers:
    {
      "uiculture": "en-GB",
      "culture": "en-GB",
      "theme": "/Flowtime/Shared Resources/Themes/Sequence8/",
      "X-SqXsrfToken":xsrf,
      "config": "Portal"
    },
  dataType: "json",
  contentType: "application/json; charset=utf-8",
  success: function (data) {
  },
  error: function (error) {
    console.log(error);
  }
});
```

## Success Response

***CommandResult*** = true
