

## Create a Dynamic Link in a Message Body

Last Modified on 12/03/2017 7:34 am EST

Create a dynamic link in a message body.

### Procedure

1. Navigate to the Cora SeQuence database.
2. Create the following stored procedure.

```
CREATE PROCEDURE sp_{StoredProcedureName} AS SELECT '{TEXT}' AS link
```

3. In the message body, insert the following expression.

```
Link to {SQL: exec sp_StoredProcedureName}
```
