Revert to the Old Flowtime Portal

Last Modified on 02/18/2018 5:59 am EST

v.8.3.4 and later

If your solution has a fairly small amount of workflows, and the categories are not required, follow these steps to revert to the old Flowtime landing page.

Procedure
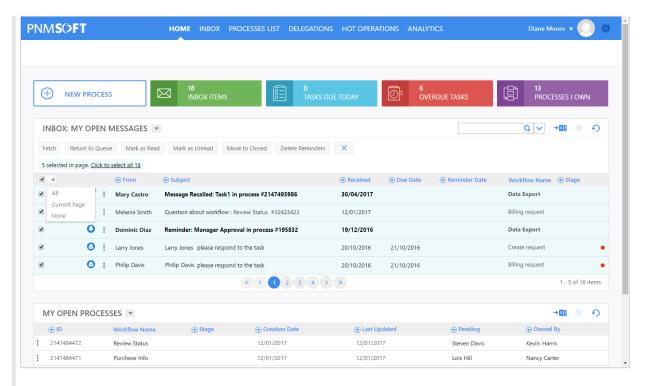

If your solution has a fairly small amount of workflows, and the categories are not required, follow these steps to revert to the old Flowtime landing page.

1. In the `Default.config` file, change the menu item as detailed below. The `Default.config` file is located in `~/Shared Resources/Components/Flowtime/Config/Portal/Commands/Default.config` .

   New Portal:

   Old Portal:

2. In the same file, change the navigation text.

   New Portal:

   Old Portal:

3. Add URL mapping in the Flowtime config file.

4. Modify the following key in the section of the Flowtime `web.config` file to match the key below.
