

# Cora SeQuence 8.3.2 Release Notes

Last Modified on 05/07/2018 10:00 am EDT

26 JULY 2017

This is an update for Cora SeQuence v8.3.0, which includes new product functionality, and resolves product issues, detailed below.

## Enhanced Functionality

### HotOperations UX

- You can now open cases and tasks by double-clicking the tiles on work allocation or work assignment boards
- (Breaking Change) You can now view a task's subject line in the tiles on the work assignment board. (Compared to task alias in the previous version.)
- You can perform any action from the work assignment and work allocation boards, that exist in the grids.

## Resolved Issue

**Imports on PNMsoft cloud environment in persistent loop Resolution:** Deployment code was updated to overcome SQL Azure limitations.

## Update Steps

### Update from 8.3.1:

1. [Download](#) the files.
2. Make sure the following files and folders are on the same level in the server.

- Azure
- GAC
- Shared Resources
- exe.bat
- PatchTo8\_3\_2.ps1

3. From the update folder, right-click the `.exe` file and select **Run as administrator**.

**NOTE:** If you are running a Cora SeQuence version earlier than v8.3.1, you must install v8.3.1 before you install v8.3.2.
