

Workflows for Beginners

Last Modified on 01/18/2018 2:40 am EST

This module is designed for beginners that have completed the module [Introduction to BPM and Cora SeQuence](#). In this module, we'll learn how to create a basic Service Request workflow. We recommend that you complete the modules in order, as some topics require knowledge acquired from previous modules. After you complete this module, you'll be able to answer these questions.

- How do I model a workflow?
- How do I create a workflow in App Studio, based on the workflow model?
- How do I create a Cora SeQuence [form](#)?
- How do I create a Cora SeQuence [task](#)?
- How do I create a Cora SeQuence [message](#)?
- How do I assign workflow permissions?

Getting Started with Workflows

Course Title	Description
Create a Basic Workflow	Learn how to create a workflow with forms, tasks, messages, and assign workflow permissions.
