

## List of SQL Errors Handled by Cora SeQuence

Last Modified on 04/21/2019 9:52 am EDT

Cora SeQuence addresses the following SQL server errors, which are treated as temporary errors and handled by the retry mechanism. All other SQL server errors generate an error.

SQL Server error codes		Azure SQL Database error codes
-2		10928
-1		10929
233		40197
1205		40501
10053		40613
10054		40627
10060		

For more details on these errors, see the following pages:
