Last Modified on 06/07/2021 9:52 am EDT

June 2019

This is an update for Cora OpsManager v2.0, which resolves product issues, detailed below.

To download the release package and instructions, click here.

Resolved Issues

#	Issue	Resolution
1	Pending closure action won't work if the SMTP server is down.	Pending closure action works fine when the SMTP server is down. The error is logged, and no pending closure email is sent.
2	Currently, Cora OpsManager does not support special characters in user names.	Cora OpsManager now supports user name with special characters.
3	On Configuration Sets page, "Create blank configuration" doesn't work.	It is possible to create a blank configuration on Configuration Sets page.
4	Address book would update only 20 records at the time.	It is now possible to update more than 20 records in Address Book.
