Cora SeQuence V9.x Required Roles and Features

Last Modified on 08/25/2022 5:08 am EDT

Required roles and features

Before you deploy a Cora SeQuence application, make sure that the following roles and features are installed.

> **NOTES**
> - When you deploy a site, you need to install *all* the listed roles and features.
> - If you encounter errors during deployment, check that all the required role services are properly installed.
> - Some of the role services listed are installed by default in later versions of IIS.
