

Deep Link Examples

Last Modified on 07/10/2024 9:50 am EDT

V10.2 and later

Overview

Cora Orchestration supports deep linking in URLs, which enables the applications to send the user directly to the specific in-app location. Deep links open a specific URL in a new tab instead of in a new window. It reduces the overhead of managing different windows and improves the user experience.

Currently, there's no deep linking for search queries. For example, **/search?q=phrase*.

Examples

Syntax	Deep link example	Description
<Application URL>/wf/<workflowID>	/wf/2148677618	Opens a specific workflow instance using workflow ID. 2148677618 is the workflow ID.
<Application URL>/wfspaceid/<space-guid >	/wfspaceid/513d4456-4f73-4d6b-8bbb-57cc74ec094b	Opens a specific workflow instance using the workflow space ID. 513d4456-4f73-4d6b-8bbb-57cc74ec094b is the space ID.
<Application URL>/msg/<messageID>	/msg/2147588810	Opens a specific message. 2147588810 is the message ID.
<Application URL>/act/<activityID>	/act/2183877237	Opens a specific activity. 2183877237 is the activity ID
<Application URL>/a/Default/<dashboardName>	/a/Default/HR/Sales1	Opens a specific dashboard. <i>Sales1</i> is the name of the dashboard.
<Application URL>/s/<solutionName>	/s/SolutionSales/	Opens a specific solution. <i>SolutionSales</i> is the name of the solution.
<Application URL>/s/<solutionName>/a/Default/<dashboardName>	/s/SolutionSales/a/Default/Hot Operations/Ops%20Manager%20Dashboard	Opens a specific dashboard in a specific solution. <i>SolutionSales</i> is the name of the solution. <i>Ops Manager Dashboard</i> is the name of the dashboard.
<Application URL>/cases/<workflowInstanceID>	/cases/18c1e53c-2fa3-45ae-a0b6-2719875371f7	Opens the <i>Processes I Started</i> case list of a specific workflow.

Syntax	Deep link example	Description
<Application URL>/wfid/<workflowInstanceID>	/wfid/3602ea09-5e8f-4f87-a324-edc546cb0443	Creates a new instance of a specific workflow.
