

UI Changes in the Administration Site from V10.7 onwards

Last Modified on 12/02/2024 1:58 am EST

V10.7

Overview

From V10.7 onwards, the UI for the Admin site UI is updated. The card order has been changed and the options within cards have also been changed.

- Manage Applications card: Added options to manage application variables, config set, and AI plugins.
- Control & Monitor card: Job management is added to manage system jobs.
- Workflow Security card: New card added to manage workflow security. The security option is removed from the branch.
- Getting Started card: Added options to create dashboards and manage Admin introduction.
- Watch videos card: Removed this card from the home page.
- Manage Organization card: The option to manage Active Directory settings is not available for developers.

Edit organization UI changes

- A new Remove All option is added to delete all the employees at once.
- From employee properties page, the mailbox is hidden.
- The Copy Teams and Roles option is available only to the Global Admins and users with Developer access level.
- While adding an employee, the options to edit and to move are hidden, User Name column is added, and the Group Manager column is removed.

The screenshot displays the 'Employees' management interface. At the top, there are navigation tabs: 'Employees', 'Subgroups', 'Employee Roles', 'Properties', and 'Copy Teams And Roles' (highlighted with a red box). A search bar is present with a dropdown menu set to 'Employee' and the text 'Search for an employee in Sales'. Below the navigation, the breadcrumb 'Entire Organization > Sales' is visible. The main content area is titled 'Employees in Sales (?)' and contains a table with the following data:

Last Name	First Name	E-mail	User Name	Roles	Remove
Administrator	Global	[redacted]	ga	Employee, HotOperati...	✗
Dahan	Ana	[redacted]	ad	Employee, HotOperati...	✗
Developer	AnaDev	[redacted]	AnaDev	Employee, HotOperati...	✗
GlobalAdmin	Sharon_ga	[redacted]	sharonlga	HotOperations Manage...	✗
Sha	Sam	[redacted]	sasha	HotOperations Manage...	✗
T	[redacted]	[redacted]	at	Employee, HotOperati...	✗

At the bottom of the table, there are two buttons: '+ Add Employees' and '- Remove All' (highlighted with a red box).

Manage Employee

Following are the UI changes in the Manage Employee page:

- In the Employees grid, User Name column is added, and User Type column is replaced by Access Level.
- Delete employee option is removed. You can disable an employee by disabling the Active check box while editing the employee.

Solution and Workflow UI changes

Following UI changes are made in the Solutions and Workflows UI

- Removed shortcuts under Master Workflow Common Tasks to have a simpler dashboard for end users.
 - Set Runtime Permissions
 - Manage Business Rules
 - Attach Object
 - View History
 - Handle Running Processes
 - Open Process Lab
 - Manage Stages List
 - Manage Master Workflow Variables
